

## **SELBY DISTRICT COUNCIL**

### **LOCAL GOVERNMENT (MISCELLANEOUS PROVISIONS) ACT 1976**

#### **MEDICAL REPORT**

#### **MEDICAL IN CONFIDENCE**

#### **HACKNEY CARRIAGE/PRIVATE HIRE VEHICLE DRIVERS**

This report form is used by Selby District Council for the purpose of assessing fitness for Hackney Carriage and Private Hire vehicle drivers. When fully completed, please return it in the enclosed envelope to:-

Licensing Team  
Selby District Council  
Civic Centre  
Doncaster Road  
Selby  
YO8 9FT

#### **Medical Summary**

Selby District Council needs to be satisfied that all licences taxi and private hire drivers are medically fit. In order to assess an individual's medical fitness the council applies the standards required for a DVLA Group 2 licence which requires a higher level of fitness than is needed for an ordinary driving licence.

#### **How do I arrange my medical?**

The council's medical form can be obtained from Selby District Council's website using the following link <https://www.selby.gov.uk/drivers> . It should be taken to your own doctor, who has access to your full medical history. When you have had the form completed and signed you then need to return it to the address above.

#### **How often do I have to have a medical?**

Medicals are renewable every three years until the age of 65 (unless the period is reduced because you have an ongoing medical condition). From the age of 65 years, the Group 2 medical is renewable every year without an upper age limit.

#### **Criteria for assessing medical fitness**

The medical form will require the doctor examining you to answer a number of questions regarding your medical fitness, which include:

- Cardiovascular (heart)
- Vision
- Musculoskeletal (body)
- Neurological
- Psychiatric

While each case is dealt with on an individual basis, if you have any of the following it may result in the refusal of an application:

- Epilepsy
- Have sight in one eye only or poor vision generally
- A progressive degenerative illness
- A history of drug abuse
- A history of mental illness
- A physical disability which might stop you from being able to carry out the duties of a driver

- Heart problems
- Neurological or neurosurgical disorders (such as strokes, blackouts or head injuries)
- Certain prescribed medications

### **Insulin treated diabetes**

From 15 November 2011, the DVLA has removed the ban on people on insulin driving Group 2 vehicles (larger vehicles and some passenger carrying vehicles). People with diabetes treated with insulin can now undergo individual independent medical assessment annually to assess their fitness to drive these vehicles. However to apply for a licence you will also need to meet the strict criteria for diabetic control which are referred to in the DVLA guidance notes Medical Standards of Fitness to Drive 2013.

### Applicant's declaration

You **must** fill in this section and **must not** alter it in any way.

Please read the following important information carefully then sign to confirm the statements below.

#### Important information about fitness to drive

As part of the investigation into your fitness to drive, we (DVLA) may require you to have a medical examination or some form of practical assessment. If we do, the people involved will need your medical details to carry out an appropriate assessment. These may include doctors, orthoptists at eye clinics or paramedical staff at a driving assessment centre. We will only release information relevant to the medical assessment of your fitness to drive. Also, where the circumstances of your case appear exceptional, the relevant medical information would need to be considered by one or more members of the Secretary of State's Honorary Medical Advisory Panels. Panel members must adhere strictly to the principle of confidentiality.

#### Declaration

I authorise my doctor and specialist to release reports and information about my condition which is relevant to my fitness to drive, to the Secretary of State's medical adviser.

I understand that the Secretary of State may disclose relevant medical information that is necessary to investigate my fitness to drive, to doctors, paramedical staff and panel members.

I declare that I have checked the details I have given on the enclosed questionnaire and that, to the best of my knowledge and belief, they are correct.

I understand that it is a criminal offence if I make a false declaration to obtain a driving licence and can lead to prosecution.

### Recommendations to the Authority

**I have this day examined the applicant who has signed this form in my presence with a summary of their medical records.**

I understand the demands which the driving of a Hackney Carriage or Private Hire Vehicle may impose upon the health of the applicant;  
 I have had regard to the medical standards used by the Driver and Licensing Authority (DVLA) for assessing standards for Group 2 vocational drivers and Notes for Guidance issued by the British Medical Council. I understand that the Guidelines under Group 2 entitlement are followed by the Authority.

Note 1	It is considered that a public duty of care arises upon the licensing of drivers of Hackney Carriages and Private Hire Cars. Where a licence is issued in reliance upon a certificate of fitness it is considered that the duty of care may extend to the Medical Practitioner. This may be especially relevant if the driver is subsequently involved in an accident where his/her fitness is an issue.
Note 2	A medical practitioner who negligently or recklessly certifies to be fit an applicant who does not meet the vocational driver standard may be reported to the British Medical Council.

I hereby certify that in my professional opinion the applicant is [**\*FIT/UNFIT**] to drive a Hackney Carriage or Private Hire Vehicle

**\*Delete as appropriate**

***I am satisfied that the whole of the significant past medical history has been properly revealed and taken into account in my decision as to the applicant's fitness.***
